## **UPCOMING...**

Monday 1/17	Martin Luther King, Jr. Day – SCHOOL CLOSED
-------------	---

### **5th Grade Families - Discussion about Health, Wellness, and Sexuality**

Tuesday, January 11th, 7:30 PM via zoom – Link Sent to 5<sup>th</sup> Grade Families via Email

Join us for a discussion about the Life Skills classes where your children will be learning about growth and development (aka "The Puberty Talk"). The discussion will include an overview of topics to be covered during these Life Skills lessons, including growth and development, values around sexuality, communication and decision-making. Learn more about how to successfully facilitate conversations with your child around these topics, and how to be an "Askable Parent."

### **NURSE'S NOTES** - Maureen Krane, kranem@d-e-org

#### **Covid Vaccine Documentation**

If your child has begun their covid vaccine series, please upload their card to their Magnus Portal. After signing into Magnus, go to "COVID-19 LS Parent Vaccination Survey" (this is where you uploaded your card), then "edit" and then "add file". Please do this when your child receives their first vaccine and then again when the second vaccine is given.

#### **Winter Weather Is On Its Way**

As the weather turns colder, please remember that students spend recess and sometimes snack outdoors. Parents are reminded to send their child to school with the appropriate outerwear for rainy and cold weather including a hat, gloves, and a Chapstick to keep in their pocket. Also, when it snows, children should be sent with boots and snow pants so they can go outside. Finally, each child should have a complete change of clothes in their locker as I do not have changes in the Health Office. Please feel free to reach out to me with any questions.

### **MESSAGE FROM AFTERCARE/ENRICHMENT (ACE)**

For this ACE term, we've built a winter of wonder with enrichment and specialty classes in cooking, Mandarin, tennis, fencing, coding, chess team, French, soccer, art and so much more.

If you haven't had a chance to sign up for the Winter 2022 term, please click [here](#) to take a look at the offerings and to register. Register by Monday, January 10 to secure a space. Note that we're pushing back by a week the start dates for Enrichment and Specialty AfterCare Activities such as cooking and art to ensure that all our providers and enrolled students may get a full six week program.

If you need assistance with registering, please reach out to [Amy Marciano](#)
