NURSE'S NOTES...

By Mrs. Maureen Krane RN, Lower School Nurse

As the cold weather settles in, it's time to try on all our winter coats. As you sort through, please remember our Lower School coat drive. Gently used coats, scarves and gloves that are collected will be going to our local neighbors. All sizes accepted. You may drop off any time; there is a bin located outside of the Health Office.

On a similar note, please be sure your child has a change of clothes in their locker. This applies to children in all grades, not just the youngest. With rain and snow comes wet playground equipment which, in turn, means a wet child. Please choose a non-favorite pair of pants, shirt, underwear and socks to be left in your child's locker. Please tuck a warm hat and gloves in your child's coat. We go out several times a day, and all students are expected to go outdoors, unless medically contraindicated. When snow arrives, add boots and snow gear for some outdoor fun! This time of year the chapped lips have begun, so please put a chapped stick in your child's coat or backpack

The cold weather is bringing with it stomach viruses and colds. Often it is difficult to decide when to send them into school and when to keep them home. If your child is not feeling well, excessively coughing and blowing their nose, please give them a day of rest at home. The little ones may not be able to take care of their heavy runny noses, and in this instance please keep them home until the runny nose has resolved. Finally, if your child has vomited or experienced diarrhea in the evening or overnight, please have them stay home for the day.

As always, please call me with any questions at the health office, 201-227-3162

*The faculty and staff wish all our students and their families
a very Happy Thanksgiving!*
